

VIT-AP University Summer Research Internship Program

Offered by School of Electronics Engineering, VIT-AP University
(VSRI-SENSE 2026)

About School of Electronics Engineering (SENSE), VIT-AP University

Established in 2017 as the Department of Electronics and Communication Engineering and elevated to the School of Electronics Engineering (SENSE) in 2019, the school has evolved into a dynamic hub of academic excellence and research innovation. In 2026, SENSE further strengthened its academic vision by expanding into four specialized departments: **Communications and Signal Processing**, **Micro and Nano Electronics**, **Embedded Systems**, and **Electrical Engineering**. This strategic expansion aligns its meticulously designed programmes with emerging technological advancements and evolving industry requirements. SENSE offers a comprehensive range of undergraduate programmes, including **Electronics and Communication Engineering (B. Tech. ECE)**, with specialized tracks in **Embedded Systems (B. Tech. ECE-ES)**, **VLSI (B. Tech. ECE-VLSI)**, **Electronics and Computer Engineering (B. Tech. ECM)**, and **Electrical and Electronics Engineering (B. Tech. EEE)**. Advanced study is facilitated through the postgraduate **(M. Tech VLSI Design)** and **Ph.D.** programmes. The curriculum is carefully designed to emphasize real-world applications, equipping students with the expertise to develop innovative semiconductor devices, intelligent embedded systems, smart power grids, and advanced communication technologies. Supported by a team of highly qualified and dedicated faculty members, SENSE promotes experiential learning through state-of-the-art infrastructure, effectively bridging scientific principles with industrial applications to nurture future engineers, researchers, and innovators.

About VSRI-SENSE 2026

The SENSE, VIT-AP University is pleased to announce the **VIT-AP Summer Research Internship Program (VSRI-SENSE 2026)** for undergraduate and postgraduate engineering students from institutions across India and abroad. This program is designed to provide participants with meaningful exposure to advanced research methodologies, emerging technologies, and interdisciplinary innovation. The initiative aims to inspire young minds toward research-oriented careers in academia, industry, and technological development by enabling them to work closely with experienced faculty members on contemporary research problems. The internship provides an excellent platform for students to strengthen their technical knowledge, enhance analytical and problem-solving abilities, and gain hands-on research experience in cutting-edge domains such as electronics, communication systems, signal processing, artificial intelligence, embedded systems, VLSI, electrical and power engineering, and related fields.

Number of Internships: 200 Students (selected based on merit).

Eligibility & Guidelines

- Candidates should be currently pursuing a B.E./B.Tech./M.E./M.Tech. degree in ECE, EEE, CSE, or other allied disciplines from a recognized Indian or foreign institution.
- Applicants must have a minimum CGPA of 7.0 or an aggregate of 70% at the time of application.
- **Registration for VSRI-SENSE 2026 is completely free of cost.**
- Internship duration will be **45 days**. Applicants must be physically available on campus during the internship period.
- No Fellowship will be provided.
- Hostel accommodation and food will be provided to the selected interns on a nominal cost basis.
- An internship certificate will be provided upon successful completion, as assessed by the respective guide(s).

Application Process and Deadlines

- Applications must be submitted online by using the following link. No other modes of application will be considered.
- Upload the proofs of CGPA or percentage, latest CV, and No Objection Certificate (NOC) issued by your institution.
- Incomplete applications or applications submitted after the deadline will be rejected.
- Application Link: <https://forms.gle/GGwM6bKf3GjCiwzn9>

Release of Internship Notification	: 15th May 2026
Last Date for Online Application Submission	: 21st May 2026
Intimation to Selected Candidates through Email	: 22nd May 2026
Internship Commencement Date	: 01st June 2026

Research Topics

Department of Communications and Signal Processing		Department of Micro and Nano Electronics	
CSP1	RF, Microwave, and Antenna Engineering	MNE1	Semiconductor Devices, Nano-electronics & Materials
CSP2	Wireless Communication & Next-Generation Networks	MNE2	Low Power VLSI and Energy-Efficient Architectures
CSP3	Speech and Audio Signal Processing	MNE3	Quantum Computing
CSP4	Biomedical Signal and Medical Image Processing	MNE4	Physical Design Verification
CSP5	Artificial Intelligence, Machine Learning, and IoT	MNE5	CMOS Digital IC Design
CSP6	Satellite Image Processing and Remote Sensing	MNE6	Analog VLSI Design
CSP7	Optical Sensors and Photonics	MNE7	System on Chip (SoC) Design
Department of Embedded Systems		Department of Electrical Engineering	
ES1	Robotics and Automation	EE1	Smart Grid Technologies
ES2	Instrumentation and Sensors	EE2	Classical and AI-Based Controller Design
ES3	RTOS-based Embedded Predictive System by Edge TPU	EE3	Electrical Characterization of Nanomaterials
ES4	Autonomous Systems	EE4	Electric Vehicles
ES5	AI-based Vehicle Intelligence system	EE5	Renewable Energy Sources and Microgrids
ES6	Industrial Automation, Smart Manufacturing, and Communication Protocols (Industry 4.0)	EE6	Power Electronic Converters

Dr. Y. V. Pavan Kumar

Dean, School of Electronics Engineering (SENSE)

Dr. Khairnar Vikas Vishnu

Head, Dept. of Communications and Signal Processing

Dr. Subhasish Mahapatra

Head, Dept. of Embedded Systems

Dr. Gurumurthy Komanapalli

Head, Dept. of Micro and Nano Electronics

Dr. Ch. Naresh

Head, Dept. of Electrical Engineering

State-of-the-art
Laboratories

Advanced Tools
& Instruments

Expert Faculty
Mentorship

Innovate,
Explore & Excel

Certificate upon
Successful
Completion
